MAILER BOX INSERT ASSEMBLY

2x1 | Standard E-flute cell insert

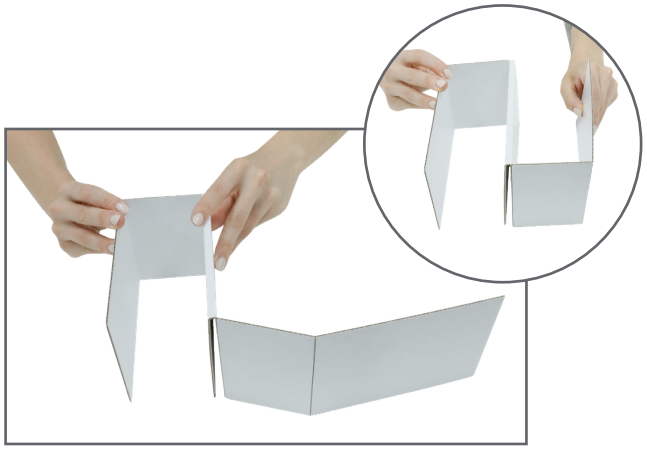

01

Gently bend the insert backwards along each scored line.

02

Fold in half at the two central scores, keeping the score marks inside the fold.

03

Open out the two end panels on the left, then repeat on the right.

04

Lower into the box. Angle the end panels inward if needed, then ease them outward to hold the insert in place.

05

Check that the divider is seated evenly before loading the two cells.
